**Missouri Weekly Hay Summary 12/07/18**

Wet sloppy muddy conditions have taken over much of the state. Although temperatures continue to trend below average, they are not staying cold enough to keep the ground frozen hard enough to get around by any means. Most everyone is feeding hay now as what grass farmers were able to stockpile is mostly if not all gone at this point. There is currently many smaller producers and horse farmers who generally do not produce any hay themselves are in the market looking for hay. The supply of hay light to moderate. Hay prices are steady. Hay demand is moderate to good. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
